

# 1- Average

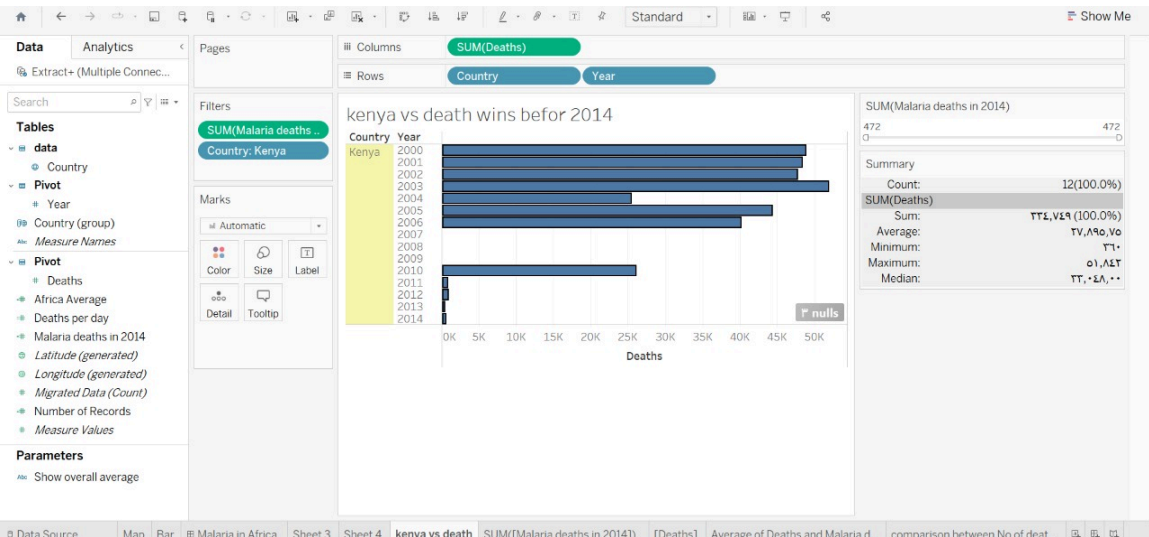

## Average of Deaths and Malaria deaths in 2014 top 10

# 2- comparison

comparison between No of deaths yearly and malaria deaths in 2014

# 3- Kenya wins

The beginning of 2000 AD, the numbers were terrifying, but they wins

The screenshot displays the Tableau Desktop interface. On the left, the 'Data' pane shows a table named 'data' with columns 'Country' and 'Year'. The 'Columns' shelf contains 'SUM(Malaria deaths i...)' and the 'Rows' shelf contains 'Country'. The 'Marks' shelf is set to 'Automatic'. The main view shows a horizontal bar chart titled 'SUM([Malaria deaths in 2014])'. The x-axis is labeled 'Malaria deaths in 2014' and ranges from 0K to 28K. The y-axis lists countries. The bars are black, and the values are displayed at the end of each bar. A '9 nulls' label is visible in the bottom right corner of the chart area.

Country	Sum of Malaria deaths in 2014
